request that Hailey received was now showing as my contact 'Reeves' to add on Snapchat with the username @hunterarban. Reeves also attempted to add Hailey on Instagram with the username arthur.reeves.980 and pictures of Reeves. Your Affiant photographed and documented all of these things.

A Preservation Request was served on February 27th, 2024, via email to Snapchat, Inc. Snapchat responded with a confirmation email and assigned the preserved data with Snapchat case number #472692eaf0. Snapchat will preserve the data for a period of 90 days and will extend the preservation upon request.

Your AFFIANT also knows through his own experiences and those of other Law Enforcement Officers that Snap, Inc. owns and operates a free-access social networking, electronic commerce, and cloud services application(s) of the same name that can be accessed using the Snapchat mobile application(s). Snapchat allows its users to establish accounts with Snapchat, and users can then use their accounts to post "Snaps", "Stories", "Memories", and send and receive "Chats".

"Snaps" are when a user takes a photo or video using their camera phone in real-time and then selects which of their friends to send the message to. Unless the sender or recipient opts to save the photo or video, the message will be deleted from their devices (after the content is sent in the case of the sender and after it's opened in the case of the recipient). Users are able to save a photo or video they've taken locally to their device or to Memories, which is Snapchat's cloud-storage service.

"Stories" are when a user adds photo or video Snaps to their "Story." Depending on the user's privacy settings, the photos and videos added to a Story can be viewed by either all "Snapchatters" or just the user's friends for up to 24 hours. Stories can also be saved in "Memories".

"Memories" is Snapchat's cloud-storage service. Users can save their sent or unsent Snaps, posted Stories, and photos and videos from their phone's photo gallery in Memories. A user can also edit and send Snaps and create Stories from these Memories. Snaps, Stories, and other photos and videos saved in Memories are backed up by us and may remain in Memories until deleted by the user.

Using "Chat" a user can type messages, send photos, videos, audio notes, and video notes to friends within the Snapchat app using the Chat feature. A user sends a Chat message to a friend, and once it is viewed by both parties – and both parties swipe away from the Chat screen – the message will be cleared. Within the Snapchat app itself, a user can opt to save part of the Chat by tapping on the message that they want to keep. The user can clear the message by tapping it again.

Your AFFIANT is aware through research, documentation, prior training and experience, and/or the experience of other investigators that Snapchat collects and stores personally identifying information on their users. This information consists of user supplied information that can be used to identify the user and/or account creator of a Snapchat account.

This information may include, but is not limited to Basic Subscriber Information collected when a user creates a new Snapchat account, alters information at a later date, or otherwise interacts with the Service, Basic subscriber information may include: Snapchat username, Email address, Phone number, Snapchat user vanity name, Snapchat account creation date and IP address, Timestamp and IP address of account logins and logouts.

This information may also include Logs of Previous Snaps, Stories, and Chats Snapchat retains logs for the last 31 days of Snaps sent and received, for 24 hours of posted Stories, and for any unopened Chats or those saved by a sender or recipient. The logs may contain meta-data about the Snaps, Stories, and Chats, but not the content. Your AFFIANT knows in certain limited circumstances it may be possible for us to retrieve the content of sent Snaps. Story content may be available for up to 24 hours, or until deleted by a user. Your AFFIANT knows Memories content may be available until deleted by a user.

The records which are the subject of this search warrant are material and relevant to a legitimate law enforcement ongoing investigation. Pursuant to Nebraska Revised Statute(s) 86-2,105 to 86-2,108, affiant requests that Snap Inc. shall be ordered NOT to notify any other person of the existence of this search warrant, including the user of the account, or release any information related to this search warrant, as there is reason to believe that notification or other disclosure would impede this ongoing investigation or otherwise cause an adverse result, as defined by law. Specifically, disclosure would likely result in flight from prosecution, a negative or harmful modification of activities or the activities of those with whom the subject of the investigation communicates and/or associates, the destruction or tampering with evidence; or would otherwise seriously jeopardize the investigation.

The above does constitute grounds of probable cause for the issuance of a search warrant to search Snap Inc., 2772 Donald Douglas Loop North, Santa Monica, CA 90405 for the following information associated with the Snapchat user ID “@hunterarban” between the dates of January 1st, 2023, at 12:01 AM CST to February 27th, 2024 at 11:59 PM CDT with preserved data associated to Snapchat case number #472692eaf0
