CR 24-1

IN THE MATTER OF THE  
SEARCH WARRANT FOR:

VERIZON WIRELESS - 180  
WASHINGTON VALLEY ROAD,  
BEDMINSTER, NJ 07921

ORDER TO UNSEAL  
AFFIDAVIT,  
SEARCH WARRANT  
AND RETURN

CLERK OF THE  
DISTRICT COURT

2024 APR 18 PM 3:45

LANCASTER COUNTY

This matter came before the Court upon the motion of Eric S. Miller, Deputy County Attorney of Lancaster County, for an order of this Court directing the Clerk of the District Court to unseal and prepare one (1) certified copy of the Affidavit, Search Warrant, and Return dated December 22, 2023. Said Search Warrant was filed on or about January 29, 2024. The Affidavit, Search Warrant and Return are related to Law Enforcement case number C3-111890.

IT IS THEREFORE ORDERED that the Clerk of the District Court of Lancaster County, Lincoln, Nebraska unseal and prepare one (1) certified copy of the Affidavit, Search Warrant, and Return.

Dated this 18<sup>th</sup> day of April, 2024

~~NAME~~, being first duly sworn upon oath deposes and states that he is an Investigator for the Lincoln Police Department, Lincoln, Lancaster County, Nebraska. AFFIANT states he is currently involved in the investigation of an attempted 2<sup>nd</sup> degree Assault on an officer 28-930 & 28-201(4)(A), use of a deadly weapon to commit a felony 28-1205(1)(B), resist arrest using deadly weapon 28-904, flight to avoid arrest 28-905, occurring on December 17, 2023, occurring in Lincoln, Lancaster County Nebraska. AFFIANT has reviewed case reports regarding this investigation prepared by other involved Law Enforcement Officers.

Affiant's Background

Your affiant has been a police officer for the Lincoln Police Department since 2008. Since 2008 Affiant has been investigating misdemeanor and felony crimes with the Lincoln Police Department to include homicide, burglary, robbery, assault, weapon offences, narcotics, sexual assault, human trafficking, child enticement, and pornography. Your Affiant has training and experience in conducting criminal investigations.

This Affidavit is submitted in support of a search warrant. Since this Affidavit is being submitted for the limited purpose of securing a search warrant, your Affiant not set forth every fact known to me regarding this investigation. The statements contained in this Affidavit are based in part on the investigation that your Affiant has conducted, and information provided to your Affiant by other law enforcement officers verbally, and through written reports.

Case Facts

On Sunday December 17, 2023, at approximately 0939 hours, Officer Kernan was on patrol and conducted a traffic stop by activating his overhead marked cruiser lights on a white Hyundai Azera with no license plates. The traffic stop was initiated in the area of 19th/Knox Streets in Lincoln, Lancaster County, Nebraska. The offender vehicle stopped in a parking stall at the Willow Apartment Complex. Prior to Officer Kernan making contact with the driver, the vehicle fled in a northbound direction in the parking lot squealing the tires as it accelerated. Officer Kernan followed the vehicle which came to a

dead end. The white Hyundai backed up quickly causing the vehicle to travel over the top of a retaining wall where it struck the top of a parked vehicle that was parked in an adjacent apartment complex below the retaining wall. The vehicle that was struck was pushed sideways into another vehicle that was parked next to it. The vehicle that was struck during the reckless flight to avoid arrest sustained significant damage but is valued at less than \$5,000. It is described as a Grey 2008 Nissan Rouge and sustained approximately \$2,500 damage.

Officer Kernan exited his cruiser drawing his firearm and began to approach the offender vehicle. While approaching the vehicle the suspect accelerated quickly squealing the tires and drove forward in the direction of Officer Kernan. Officer Kernan fired two shots from his handgun as he moved away from the path of the vehicle. The vehicle then left the roadway and struck a large landscaping rock next to Officer Kernan's cruiser before fleeing the area. The vehicle was not immediately located after fleeing. There are acceleration tire marks at the scene showing the vehicles path of travel towards Officer Kernan.

Investigators used the in-car camera from Kernan's cruiser to identify the make and model of the vehicle. There were also unique markings on the suspect vehicle that would help identify it which included white writing on the windows and a red sign in the front windshield. On December 17, 2023, at 2213 hours, Officer Covault located the suspect vehicle which was parked Manatt Street between 8th-9th Streets with nobody inside. The vehicle was identified as the suspect vehicle and had in-transit tags in the window showing it was purchased at George's Auto and the purchaser's name listed as B. Blazio.

Officers obtained surveillance video from a couple houses along Manatt Street showing the suspect vehicle arriving there approximately 2-3 minutes after it fled the traffic stop. The driver is seen exiting the vehicle approximately 15 minutes later and running towards another vehicle that arrived in the area to pick him up. Affiant has reason to believe that due to the short amount of time between the suspect fleeing, arriving on Manatt Street, and being picked up by another vehicle, that the suspect would have had to communicate with other persons to assist him in avoiding apprehension. The suspect was a male wearing red shorts, black T-shirt and black slides. The suspect was also wearing his hair tied up in a bun in the back. The suspect vehicle was towed to the impound lot located at 101 Charleston St., Lincoln, Lancaster County, Nebraska, and is being held as evidence. Officers located two bullet holes in the hood of the vehicle and damage to the back driver side where it collided with the parked vehicle which confirms this was the same vehicle that fled from Officer Kernan.

During further investigation, officers determined the vehicle was purchased by

Braulio Blazio on 12-09-23 from George's Auto located at 1500 Cornhusker Highway, Lincoln, Lancaster County, Nebraska. Video surveillance was obtained from George's and shows Braulio Blazio with his hair tied up in a bun in the back also wearing black slides that are seen on the suspect. Braulio Blazio is seen wearing a black Slipknot T-shirt and dark colored long pants along with the black slides. The phone number provided by the purchaser was 402-470-1291.

On December 18, 2023, Investigator Robert Martin and your Investigator Chris Milisits interviewed Seth Kaylor. Seth is the father of Alyssa Kaylor and Alyssa is the girlfriend of Braulio Blazio. Seth was present with Braulio when the Hyundai Azera was purchased from George's Auto on December 9, 2023 and is seen on the video surveillance. During questioning with Seth Kaylor, he attempted to provide an Alibi for Braulio Blazio on December 17, 2023, when the traffic stop was made by Officer Kernan. Kaylor was vague on his timelines but stated that Blazio was with him for a funeral that took place during the day on December 17, 2023. During this initial interview Investigator Milisits showed Kaylor a still photograph that was captured from the surveillance video obtained from Manatt Street where the suspect is seen abandoning the Hyundai Azera. Kaylor told Investigator Milisits at that time that the person's hair looks just like Braulio Blazio, but the clothing wasn't his style. Investigator Milisits ended the interview without determining the timeline of when Seth Kaylor was with Braulio Blazio.

Investigator Milisits interviewed Seth Kaylor again the following day at the Lincoln Police Department on December 19, 2023, to obtain more detailed information regarding the whereabouts of Blazio on the morning of December 17, 2023. Investigator Milisits was able to establish that Seth Kaylor was not with Braulio Blazio from approximately 9:00 am until sometime after noon on December 17, 2023. Investigator Milisits also showed Kaylor the same photo of the suspect taken from the video obtained on Manatt street and confronted Kaylor with the fact that the person in the photo was Blazio. Kaylor responded by saying 'its' pretty damning evidence" he also said he did not want to be a snitch when he saw the same photograph a day earlier.

Investigator Cronin and Investigator Milisits interviewed Officer Kernan on December 20, 2023. Officer Kernan told investigators that he initiated a traffic stop on a white sedan for no license plates being affixed to the vehicle. He indicated that the offender vehicle initially stopped in a parking stall of an apartment complex in the area of 19th and Knox. The vehicle later fled driving north in the parking lot. He said the vehicle came to a dead end and backed up quickly causing the suspect vehicle to almost drive off a retaining wall to an adjoining apartment complex. Kernan said the suspect vehicle struck a parked car below the retaining wall and Kernan believed the suspect vehicle was stuck and unable to move. He said he exited his cruiser thinking the suspect would

attempt to flee on foot or surrender to police. He said that as he approached the suspect vehicle on foot, he heard the engine revving and it accelerated towards him. He said he moved to the right and fired shots at the suspect vehicle which left the roadway and struck a large landscaping rock that was next to his cruiser. Kernan told investigators that he would have been struck by the suspect vehicle had he not moved out of the vehicle's path. The suspect vehicle fled the scene and was not immediately located. Kernan believed the driver of the white sedan was a Hispanic male but he would not be able to positively identify him if shown a photo lineup. Investigator Milisits has reviewed dispatch transmissions from the date of the incident and Officer Kernan is heard telling other officers over the radio that he believed the driver was a Hispanic male.

On December 20, 2023 your Affiant served Verizon a subpoena for 402-470-1291. The Verizon records indicated that the account was associated with Amie Blazio a family member of Braulio Blazio. On December 17, 2023 the device has active voice and text communications from 0012 hrs to 2145 hrs. Data activity occurs on the device from 0334 hrs to 2320 hrs.

#### Service Provider Identity

Service to the above-listed target number is provided by the above-identified service provider. The service provider identity was obtained through a query through the on-line resource (Cell Hawk, Fonefinder.com). Your AFFIANT verified the target number(s) have not been ported and are registered to Verizon.

#### Service Provider Records

For the following section(s), your AFFIANT is relying on the knowledge and experience of experts in the field who know, understand, and have provided the following information:

A cellular telephone (cell phone) communicates via radio waves, typically via an antenna array know as cell towers. In order to transmit or receive calls and data, a cell phone must be connected to a cellular service provider's network. These communications can include traditional telephone calls, voice over Internet conversations (VoIP), text, email, social media applications, and similar digital communications. Cellular telephones are also used for taking and storing photographs, acquiring, creating, modifying, storing, and sending documents, pictures, notes, music, mapping directions to places, etc.

Subscriber information is obtained by the service provider when an account is established and typically includes the below-described information. Providers of electronic

communications services, such as the above-listed service provider, in the normal course of business, also collect customer-related usage data and in some instances, content data. This data is created and retained whenever a cellular telephone is turned on to register its availability to receive communications on the network, or when the device actually sends or receives communications.

Subscriber and customer usage data records routinely collected and retained by cellular service providers include the following:

Subscriber or Registration Account Information, including subscriber or registered user name or identity, address, billing/payment information; account initiation date and place; type of account; custom account features; additional phone numbers; addresses (both physical and electronic) and/or other contact information; additional persons having authority on the account; any additional accounts linked to the subject account; account changes for the target address and any linked accounts; and

Device Identifying Information for the device using the target address, such as phone number, MAC address, IP address, and other unique network, hardware, and software identifiers; and

Usage Information, including stored and transactional records, such as inbound and outbound non-content text or email addresses and headers; call, message, radio, or other communication detail data, together with date and time of each communication; and

Positioning information such as cell site positioning information, GPS longitude/latitude or multilateration or precision location, including PCMD, RTT, NELOS, Activity Log data, EVDO, ALULTE, REVEAL historic MLT's, TrueCall, TDOA, Timing Advance Information, and/or LevDort reports or similarly generated location information, or other information tending to reveal the proximate or precise location of the device associated with the target address; and

Connection logs and records of user activity such as connection and disconnection dates and times, method of connection, any other connection information such as Internet Protocol (IP) address of the source and receiving end of the connection, data transfer volume, user name or identity associated with the connections, connection information for the computer to which the user of the above-referenced accounts connected, and user identification records; and

Physical address of cellular antenna towers used by the customer's device, together with RF coverage map(s) and/or satellites contacted or used by the above-identified

customer/number/account(s)/device(s), and periods of telephone activation, session times, duration, and the identity of any temporarily assigned network addresses;

Cloud Storage, such as user-stored data held on a service provider operated, including stored communications such as voicemail, SMS/text messages, instant messages, email, contact and buddy lists, images, documents, and the like, together with storage, access, and/or receipt dates and data identifying the person accessing the cloud storage connected to the account;

Courts have recognized that the majority of Americans possess and use cellular telephones, and that most of those keep the phones within their reach at all times. Sometimes a person will actively use more than one cellular phone, such as one phone for work and another for personal use; or sequential phones, changing phone numbers in an effort to avoid detection by law enforcement. Individuals also sometimes possess multiple phones to have a secondary means of communication if a phone is lost or seized by law enforcement. Information contained in service provider records for devices using a target account is often evidence of or pertaining to criminal activity.

Obtaining subscriber information for a particular device is often useful in determining who possessed the device on a particular date and time. However, a more definitive way to determine the possessor of a device is to examine how the device is used over a period of days or weeks. Such records, including call detail records, location information, text messages if available, and similar data files, can show consistent patterns of usage that will help determine the user of the device. Examination of all this data is necessary to accurately determine who possessed the device at dates and times critical to the investigation.

Your Affiant requests authorization to search for and seize the listed items in Attachment B, hereby attached and incorporated by reference.

Service Provider shall send the information electronically via email at [lpd1618@cjis.lincoln.ne.gov](mailto:lpd1618@cjis.lincoln.ne.gov) or to Investigator Chris Fields at the Lincoln Police Department, 575 S 10th Street, Lincoln, NE, 68508.

This search warrant shall be executed and returned within ten (10) days to a Clerk of the Lancaster District Court, Nebraska. In the event records are not received from the Service Provider within ten (10) days, your Affiant requests authorization to returned the search warrant within ten (10) days of receipt of the records.

Further AFFIANT saith not;

Dated this 22<sup>nd</sup> day of December 2023.

  
Chris Fields AFFIANT

SUBSCRIBED to in my presence and sworn to before me this 22<sup>nd</sup> day of December, 2023.

  
Judge of the County Court  
Rodney D. Renteria  
Printed Name of Judge

IN THE COUNTY OF LANCASTER COUNTY, NEBRASKA

STATE OF NEBRASKA )
) ss. SEARCH WARRANT
COUNTY OF LANCASTER )

TO: Chris Fields, a Investigator with the Lincoln Police Department, Lancaster County, Nebraska, and any and all law enforcement officers.

WHEREAS, Chris Fields has filed an Affidavit before the undersigned Judge of the County Court of Lancaster County, Nebraska, and said written Affidavit, having been duly considered, the court finds that the facts set forth in said Affidavit are true, and that those facts do constitute grounds and probable cause for the issuance of a Search Warrant.

Pursuant to Neb. Rev. Stat. 86-2,108, the Court finds that the records which are the subject of this search warrant are material and relevant to a legitimate law enforcement ongoing investigation. Verizon is ordered NOT to notify any other person of the existence of this search warrant, including the user of the account, or release any information related to this search warrant, as there is reason to believe that notification or other disclosure would impede this ongoing investigation or otherwise cause an adverse result, as defined by law. This notice or disclosure restriction shall be for a period not to exceed 90 days.

THEREFORE, you are commanded to search the places(s) listed in Attachment A to seize the listed property, as well as search the property for the digital evidence listed in Attachment B.

Law enforcement is authorized to seize the aforementioned items.

Service Provider shall send the information electronically via email at lpd1618@cjis.lincoln.ne.gov or to Investigator Chris Fields at the Lincoln Police Department, 575 S 10th Street, Lincoln, NE, 68508.

This search warrant shall be executed and returned within ten (10) days to a Clerk of the Lancaster District Court, Nebraska. In the event records are not received from the Service Provider within ten (10) days, your Affiant requests authorization to returned the search warrant within ten (10) days of receipt of the records.

Given under my hand and seal this 22nd day of December 2023.

## ATTACHMENT B

### **Particular Things to be Seized**

To the extent that the information described in Attachment A is within the possession, custody, or control of Verizon Wireless regardless of whether such information is located within or outside of the United States, including any messages, records, files, logs, or information that have been deleted but are still available, or have been preserved.

Verizon Wireless is requested to disclose the following records for each identifier listed in Attachment A for the time frame of December 17, 2023 at 0001 hours CDT/CST to December 17, 2023 at 2359 hours CDT/CST, specifically for the following items:

1. **Specialized Location Records:** All call, voice, text (SMS & MMS), and data connection location information and transactions (registration of network events), related to all specialized carrier records that may be referred to as LOCDBOR (Location Database of Record), Historical Precision Location Information, Historical Mobile Locate (HML), vMLC (Virtual Mobile Locate - vLMC3, vMLC4, vMLC5), NELOS (Network Event Location System), RTT (Round Trip Time/Return Trip Time/Real Time Tool), PCMD (Per Call Measurement Data), TDOA (Time Difference of Arrival) or Timing Advance Information, Mediation Records, E9-1-1, and/or Historical GPS/Mobile Locate Information which shows GPS location (longitude and latitude) and Cell-Site and sector of the device in relationship to the network when connected to the network for the above referenced number.
2. **Call/Text/Data Detail Records:** All records associated with the identified mobile number, also to include all numbers that communicate with this listed number relating to all delivered and undelivered inbound and outbound calls, text messages, and text message content to any of the above listed numbers, all voice mail, and all data connections for the requested time frame, and to include Cell-site and sector, date, time, direction, duration, number called or text to and/or received from, and bytes up/down, information related to each call, text or data connection, all text message content, and voicemails, as well as Call to Destination/Dialed Digits search for all numbers listed above. Please preserve all cell-site and sector information related to each call, text or data connections.
3. **FCC TRACED Act STIR/SHAKEN Authentication Standard:** All records associated with the identified mobile number, related to the FCC TRACED (Telephone Robocall Abuse Criminal Enforcement and Deterrence) Act, STIR/SHAKEN caller identification framework, identifying all incoming Voice, Text Message Service (SMS) and Multi-Media Service (MMS) traffic, and

whether or not the caller ID passed or failed authentication. The report shall include the date, time (with time zone), originating and terminating numbers in their original state prior to Stir/Shaken authentication, the status whether it passed or failed authentication, the Attestation type, and the originating and terminating verified number that was used to validate Stir/Shaken Caller ID authentication. The report shall provide all usage events, even if the incoming usage event was blocked and flagged by the Service Provider (or other third-party entities), prior to delivery to the identified target mobile number.

4. Time on Tower and/or Sector: Also provide all cell-site and sector information related to each number called to and/or received from, and data connections, specific to the "Time on Tower" and/or Sector, to include information with the start and end date and time for each time the connection was involved in a "hand-off" to another cell-site and/or sector, to include the elapsed time (in seconds) for each "hand-off", that was used during and throughout each voice call (whether completed or not), and/or which was used during and throughout each data session.
5. Electronically Stored Records: All records associated with the identified mobile number, to include all stored communication or files, including voice mail, text messages, including numbers text to and received from and all related content, e-mail, digital images (e.g. pictures), contact lists, video calling, web activity (name of web site or application visited or accessed), domain accessed, data connections (to include Internet Service Providers (ISPs), Internet protocol (IP) addresses, (IP) Session data, (IP) Destination Data, bookmarks, data sessions, name of web sites and/or applications accessed), date and time when all web sites, applications, and/or third party applications were accessed and the duration of each web site, application, and/or third party application was accessed, and any other files including all cell site and sector information associated with each connection and/or record associated with the cell number identified.
6. Carrier Key related to call detail, text messages, data connections, IP logs, IP Sessions, web site and/or application connections, and cell site information. The "carrier key" is a legend related to the types of responsive data received from the Service Provider, which contain the record column header labels and their definitions of what each cell value represents in the spreadsheet. Carrier keys are required to decipher what the values represent in these cells, as many of these values may be presented in codes only known to the Service Provider.

7. Cloud Storage: Content stored in remote storage or 'cloud accounts' associated with the target device including, but not limited to, contacts, call logs, SMS and MMS messages with associated content including audio, video, and image files, digital images and videos, and files or documents.
8. Verizon Custom Experience (Verizon Selects): All records associated with the technology known as Verizon Selects, Verizon Custom Experience and Custom Experience Plus, to include device location information specific to the network, regardless of the device location services settings, as well as device location information specific to Verizon apps when permission has been provided by the subscriber to share such information via the device settings. Device Location information shall include Cell-site and sector, date, time, direction, duration, number called, or text to and/or received from, and bytes up/down, information related to each call, and text or data connections. The responsive data shall also include all specialized carrier records that may be referred to as RTT (Round Trip Time/Return Trip Time/Real Time Tool), and/or Historical GPS/Mobile Locate Information, which shows GPS location (longitude and latitude) and cell-site and sector of the device in relationship to the network when connected to the network for the above referenced number. The responsive data shall also include all numbers listed above, collected from Verizon applications and/or URLs and all numbers that communicate with the target number related to the Customer Proprietary Network Information (CPNI), to include all delivered and undelivered inbound and outbound calls, text messages, quantity, type, destination, location and amount of use of Verizon telecommunications and interconnected voice over internet protocol (VoIP) services and related billing information. All responsive records associated with websites/URLs/domains (top level domain and subdomain of the URL) visited, to include a list of all Verizon applications used on the mobile device, and any records related to information about Verizon Fios services. If no records are located associated with Verizon Selects, Verizon Custom Experience and Custom Experience Plus, or Verizon Fios, provide detailed information associated with the subscriber opting out of said services, to include opt-out date, time, and associated opt-out IP address.
9. Cell Site List(s): List of all cell-sites as of **December 17, 2023** for all state(s) in which the above records used cell locations. Cell site lists to include switch, cell-site number, name, physical address, longitude and latitude, all sectors associated with each cell-site, azimuth, and beam-width of each related sector. If multiple technologies (CDMA, UMTS, GSM, LTE etc.) are referenced in the records, all appropriate corresponding cell site lists will also be provided.

10. Subscriber Records: All information for the following target number including:
- a. All Subscriber information to include name, tax identification number (social security number or employer identification number).
  - b. Physical address, mailing addresses, residential addresses, business addresses, e-mail addresses and any other address information.
  - c. Credit information obtained or used by the company to grant account status.
  - d. All numbers associated with account.
  - e. Billing records.
  - f. All payments to include method, date and time of payments, and location (store name, address, and phone number of location where payment(s) were made).
  - g. All Authorized users on the associated account.
  - h. Activation date and termination date of each device associated with the account and above listed number(s).
  - i. Types of service subscriber utilized (e.g. A-list, AT&T Messages, friends and family).
  - j. Make, model, serial number, IMEI, ESN, MEID, and MAC address associated with the above listed numbers including any and all equipment or sim card changes for the life of the account.
  - k. All customer service and account notes.
  - l. Any and all number and/or account number changes prior to and after the cell number was activated.
  - m. Any other records and other evidence relating to the target number.
  - n. If any outgoing calls were made to 9-1-1, provide the call details to include date and time, duration, and cell-site and sector information, by querying any other tools (e.g. Sable, ANI/ALI, etc...) necessary to identify the outgoing call(s), whether or not it was the specific carrier network equipment associated with this search warrant, or the 9-1-1 call was carried by a different service provider based on the best signal available from another service provider at the time of the 9-1-1 call.

### **Particular Things to be Seized**

To the extent that the information described in Attachment A is within the possession, custody, or control of Verizon Wireless regardless of whether such information is located within or outside of the United States, including any messages, records, files, logs, or information that have been deleted but are still available, or have been preserved.

Verizon Wireless is requested to disclose the following records for each identifier listed in Attachment A for the time frame of December 17, 2023 at 0001 hours CDT/CST to December 17, 2023 at 2359 hours CDT/CST, specifically for the following items:

1. Specialized Location Records: All call, voice, text (SMS & MMS), and data connection location information and transactions (registration of network events), related to all specialized carrier records that may be referred to as LOCDBOR (Location Database of Record), Historical Precision Location Information, Historical Mobile Locate (HML), vMLC (Virtual Mobile Locate - vLMC3, vMLC4, vMLC5), NELOS (Network Event Location System), RTT (Round Trip Time/Return Trip Time/Real Time Tool), PCMD (Per Call Measurement Data), TDOA (Time Difference of Arrival) or Timing Advance Information, Mediation Records, E9-1-1, and/or Historical GPS/Mobile Locate Information which shows GPS location (longitude and latitude) and Cell-Site and sector of the device in relationship to the network when connected to the network for the above referenced number.
2. Call/Text/Data Detail Records: All records associated with the identified mobile number, also to include all numbers that communicate with this listed number relating to all delivered and undelivered inbound and outbound calls, text messages, and text message content to any of the above listed numbers, all voice mail, and all data connections for the requested time frame, and to include Cell-site and sector, date, time, direction, duration, number called or text to and/or received from, and bytes up/down, information related to each call, text or data connection, all text message content, and voicemails, as well as Call to Destination/Dialed Digits search for all numbers listed above. Please preserve all cell-site and sector information related to each call, text or data connections.
3. FCC TRACED Act STIR/SHAKEN Authentication Standard: All records associated with the identified mobile number, related to the FCC TRACED (Telephone Robocall Abuse Criminal Enforcement and Deterrence) Act, STIR/SHAKEN caller identification framework, identifying all incoming Voice, Text Message Service (SMS) and Multi-Media Service (MMS) traffic, and

whether or not the caller ID passed or failed authentication. The report shall include the date, time (with time zone), originating and terminating numbers in their original state prior to Stir/Shaken authentication, the status whether it passed or failed authentication, the Attestation type, and the originating and terminating verified number that was used to validate Stir/Shaken Caller ID authentication. The report shall provide all usage events, even if the incoming usage event was blocked and flagged by the Service Provider (or other third-party entities), prior to delivery to the identified target mobile number.

4. Time on Tower and/or Sector: Also provide all cell-site and sector information related to each number called to and/or received from, and data connections, specific to the "Time on Tower" and/or Sector, to include information with the start and end date and time for each time the connection was involved in a "hand-off" to another cell-site and/or sector, to include the elapsed time (in seconds) for each "hand-off", that was used during and throughout each voice call (whether completed or not), and/or which was used during and throughout each data session.
5. Electronically Stored Records: All records associated with the identified mobile number, to include all stored communication or files, including voice mail, text messages, including numbers text to and received from and all related content, e-mail, digital images (e.g. pictures), contact lists, video calling, web activity (name of web site or application visited or accessed), domain accessed, data connections (to include Internet Service Providers (ISPs), Internet protocol (IP) addresses, (IP) Session data, (IP) Destination Data, bookmarks, data sessions, name of web sites and/or applications accessed), date and time when all web sites, applications, and/or third party applications were accessed and the duration of each web site, application, and/or third party application was accessed, and any other files including all cell site and sector information associated with each connection and/or record associated with the cell number identified.
6. Carrier Key related to call detail, text messages, data connections, IP logs, IP Sessions, web site and/or application connections, and cell site information. The "carrier key" is a legend related to the types of responsive data received from the Service Provider, which contain the record column header labels and their definitions of what each cell value represents in the spreadsheet. Carrier keys are required to decipher what the values represent in these cells, as many of these values may be presented in codes only known to the Service Provider.

7. Cloud Storage: Content stored in remote storage or 'cloud accounts' associated with the target device including, but not limited to, contacts, call logs, SMS and MMS messages with associated content including audio, video, and image files, digital images and videos, and files or documents.
8. Verizon Custom Experience (Verizon Selects): All records associated with the technology known as Verizon Selects, Verizon Custom Experience and Custom Experience Plus, to include device location information specific to the network, regardless of the device location services settings, as well as device location information specific to Verizon apps when permission has been provided by the subscriber to share such information via the device settings. Device Location information shall include Cell-site and sector, date, time, direction, duration, number called, or text to and/or received from, and bytes up/down, information related to each call, and text or data connections. The responsive data shall also include all specialized carrier records that may be referred to as RTT (Round Trip Time/Return Trip Time/Real Time Tool), and/or Historical GPS/Mobile Locate Information, which shows GPS location (longitude and latitude) and cell-site and sector of the device in relationship to the network when connected to the network for the above referenced number. The responsive data shall also include all numbers listed above, collected from Verizon applications and/or URLs and all numbers that communicate with the target number related to the Customer Proprietary Network Information (CPNI), to include all delivered and undelivered inbound and outbound calls, text messages, quantity, type, destination, location and amount of use of Verizon telecommunications and interconnected voice over internet protocol (VoIP) services and related billing information. All responsive records associated with websites/URLs/domains (top level domain and subdomain of the URL) visited, to include a list of all Verizon applications used on the mobile device, and any records related to information about Verizon Fios services. If no records are located associated with Verizon Selects, Verizon Custom Experience and Custom Experience Plus, or Verizon Fios, provide detailed information associated with the subscriber opting out of said services, to include opt-out date, time, and associated opt-out IP address.
9. Cell Site List(s): List of all cell-sites as of **December 17, 2023** for all state(s) in which the above records used cell locations. Cell site lists to include switch, cell-site number, name, physical address, longitude and latitude, all sectors associated with each cell-site, azimuth, and beam-width of each related sector. If multiple technologies (CDMA, UMTS, GSM, LTE etc.) are referenced in the records, all appropriate corresponding cell site lists will also be provided.

10. Subscriber Records: All information for the following target number including:
- a. All Subscriber information to include name, tax identification number (social security number or employer identification number).
  - b. Physical address, mailing addresses, residential addresses, business addresses, e-mail addresses and any other address information.
  - c. Credit information obtained or used by the company to grant account status.
  - d. All numbers associated with account.
  - e. Billing records.
  - f. All payments to include method, date and time of payments, and location (store name, address, and phone number of location where payment(s) were made).
  - g. All Authorized users on the associated account.
  - h. Activation date and termination date of each device associated with the account and above listed number(s).
  - i. Types of service subscriber utilized (e.g. A-list, AT&T Messages, friends and family).
  - j. Make, model, serial number, IMEI, ESN, MEID, and MAC address associated with the above listed numbers including any and all equipment or sim card changes for the life of the account.
  - k. All customer service and account notes.
  - l. Any and all number and/or account number changes prior to and after the cell number was activated.
  - m. Any other records and other evidence relating to the target number.
  - n. If any outgoing calls were made to 9-1-1, provide the call details to include date and time, duration, and cell-site and sector information, by querying any other tools (e.g. Sable, ANI/ALI, etc...) necessary to identify the outgoing call(s), whether or not it was the specific carrier network equipment associated with this search warrant, or the 9-1-1 call was carried by a different service provider based on the best signal available from another service provider at the time of the 9-1-1 call.

**IN THE COUNTY COURT OF LANCASTER COUNTY, NEBRASKA**

IN THE MATTER OF THE SEARCH  
WARRANT FOR:

APPLICATION FOR A  
COURT ORDER TO SEAL  
A SEARCH WARRANT

Verizon Wireless - 180 Washington Valley Road, Bedminster, NJ, 07921

**COMES NOW** Chris Fields an Investigator for the Lincoln Police Department, in Lancaster County, Nebraska, and after being first duly sworn upon oath, deposes and states as follows:

THE APPLICANT is currently involved in an ongoing criminal investigation occurring on December 17, 2023, at within the city of Lincoln, Lancaster County, Nebraska. The APPLICANT has applied for a search warrant regarding the previously mentioned investigation.

The court further finds that the public interest requires that this search warrant, and affidavit shall be placed under seal and the existence of the information not be disclosed, except as otherwise ordered by the Court, for the reason that this is an ongoing investigation and release of this information could place persons in harm's way through retaliation, could risk law enforcement safety, could endanger property, or cause the destruction of evidence.

Because of these facts, Your APPLICANT is requesting the search warrant, the affidavit for the search warrant, receipt, inventory, return, this application and any resulting court order be sealed and maintained by the Clerk of the District Court of Lancaster County until otherwise ordered by this Court.

Further Your APPLICANT saith not.
