and 'R' Street. Investigator Meyer observed a black Kia Optima with no license plates enter the parking lot of the Petro Mart located at 2305 'R' Street. The vehicle was observed to stop in the middle of the parking lot and several individuals in hooded sweatshirts were observed to be walking around the vehicle. The hooded individuals entered back into the black Kia Optima and left northbound on North 23rd Street. Investigator Meyer determined that the black Kia Optima sedan was possibly the vehicle that was previously reported stolen and additional police units were requested to respond to the area, including the Nebraska State Patrol Airwing.

Investigator Meyer continued to follow the black Kia Optima and observed that the vehicle failed to signal its turn as it turned eastbound onto Vine Street from North 23rd Street. Investigator Meyer and additional Lincoln Police Department Investigators maintained a visual on the vehicle until the Nebraska State Patrol Airwing was overhead and began tracking the vehicle. The Nebraska State Patrol Airwing advised that the black Kia Optima was driving recklessly through the city, almost causing several accidents. Sergeant Stover #1757 with the Lincoln Police Department observed the black Kia Optima traveling eastbound on Fairfield Street, approaching North 27th Street at an estimated speed of 60 miles per hour in a 35 miles per hour zone. Sergeant Stover attempted to conduct a traffic stop near North 25th Street and Fairfield Street, however the black Kia Optima continued eastbound and violated the red light located at North 27th Street and Fairfield Street. Due the dangerous driving of the black Kia Optima, Sergeant Stover terminated his traffic stop and the vehicle fled the area.

The Nebraska State Patrol Airwing continued to follow the vehicle throughout the city and ultimately advised that the vehicle came to a stop in the 3000 block of Apple Street. Lincoln Police Department units attempted to make contact with the occupants of the vehicle, when the driver and front seat passenger continued to flee the area on foot. The Nebraska State Patrol Airwing advised that they were tracking the driver as he fled on foot. The driver was ultimately placed into custody by Lincoln Police Department Investigators at 2955 Apple Street. The driver of the vehicle identified himself as Donovan Garrett (DOB: 04-24-2004). The black Kia Optima was positively identified as the stolen vehicle that had been reported stolen by Abbas. Garrett was searched incident to arrest and a black Android phone, and a wallet were located on his person. Garrett was transported to the Lincoln Police Department Headquarters located at 575 South 10th Street, where he waived Miranda and agreed to make a statement. During the questioning, Garrett asked if the Lincoln Police Department had possession of his phone as he wanted it to be sent with him to jail.

The black Android phone that was located on Garrett's person, was seized and placed into the Lincoln Police Department Property Unit Faraday Phone Locker under property report Q2403551.

Digital Device Identification

Through your Affiant's training and experience with examining digital devices, your Affiant is aware cellular devices contain multiple device identifiers to include, an Integrated Circuit Card which has an Integrated Circuit Card ID number ("ICCID"), this ICCID is the serial number of the device's SIM card. The SIM card generally contains the Mobile Station Integrated Services Digital Network Number (MSISDN) also referred to as the phone number utilized by the device. The telephone number of a user's device can be linked to the carrier or provider of service for the device along with secondary providers such as Apple and or Google. Digital devices also contain other device identifiers, including the Media Access Control address ("MAC address"), the unique device identifier ("UDID"), serial numbers, an International Mobile Subscriber Identity ("IMSI") and International Mobile Equipment Identification ("IMEI"). These identifiers are utilized in varying capacity for identification of the device and for access and use of service providers, and third-party applications.

The accessing of a device for multiple device identifiers is not unlike that of access the interior of a motor vehicle to identify the Vehicle Identification Number (VIN). The information identified from the multiple device identifiers is also analogous to the search for "indicia of occupancy" while executing a search warrant at a residence and will aid in the identification of the user and or operator of the device. Therefore, the records requested in this warrant are likely to contain the identifiers required to identify owner, users, and/or service providers utilized by the device.

Your Affiant requests authorization to search for and seize the listed items in Attachment A and Attachment B, hereby attached and incorporated by reference.

Service Provider shall send the information electronically via email at lpd1828@cjis.lincoln.ne.gov or to Investigator Buhrman #1828 at the Lincoln Police Department, 575 S 10th Street, Lincoln, NE, 68508.

This search warrant shall be executed and returned within ten (10) days to a Clerk of the Lancaster District Court, Nebraska. In the event records are not received from the Service Provider within ten (10) days, your Affiant requests authorization to returned the search warrant within ten (10) days of receipt of the records.
